GoHubi - AI for the rest of us

Our family call plan

Print this page, fill it in together on paper and keep it somewhere private.

An urgent call asks for money

1. **Pause.** A familiar voice or caller ID does not prove who is calling.
2. **End the call.** Take time to check before sending money or sharing details.
3. **Call the person back** using a number you already know, saved in your phone or written below.
4. **If you cannot reach them,** check with another trusted person before acting.

Our rule: we will always make time for a call-back check.

Our private safe phrase

Agree one together. Keep it within your trusted group and out of public posts.

Use the phrase alongside the call-back check.

People we can call

Write numbers you have checked with each person.

Name	Known phone number

If money or bank details have already been shared

Contact your bank or card provider straight away using the number on your card or its official app.

Sources checked: 12 November 2026. Based on these official UK guides:

UK Government: Stop! Think Fraud phone-fraud guidance
Ofcom: what to do about a scam call, text or message
